

40w LED Panel

BritLED
making a brighter world

The British Made LED panel with British made driver is perfect for saving energy in and is made to fit directly into a suspended ceiling or can be surface mounted. Direct replacement for T8 modules in office areas and retail spaces with a 60% energy saving. Manufactured in the UK and tested by the LIA to BS EN60598 standards, our British manufactured Led Panel will be life tested under the new LIA Verified Scheme.

Technical

Input Voltage:	230-240V AC
Led Type:	Seoul Semiconductor
Max Lumen Output:	WW3400lm-NW3600lm-CW3800lm
Average Lumens Per Watt:	95 Lm/w
Component Warranty:	3 years
Tested:	BS EN60598
Material (Shell):	Aluminium
Size:	595x595
Load:	1200mA
Driver:	British Made
CRI:	80
Manufactured:	Britain
